6. CONDITIONS

The Town Council will not generally refuse any reasonable request to build structures on allotments. However permission may be refused if in the opinion of the Council:-

- The plot is over developed
- The structure is likely to cause nuisance to neighbouring plot holders, e.g. if it blocks sunlight, causes rainwater to drain on a neighbouring plot.
- The structure is to be used for any purpose not approved by the Council
- The structure blocks access for maintenance to any part of a plot

The council would advise that you discuss your application with neighbouring plot holders prior to submitting the application.

The Council may require that you remove any structure if your tenancy is terminated by either party.
